

A.C Paving Company
Letter of Recommendation

To whom it may concern:

I am pleased to recommend the services of A.C. Paving Company (AC) for any type of projects involving demolition, paving, and the coordination of any other sub contract work associated with job. In 2011, AC was able to perform a demolition job which demanded an extreme amount of flexibility as the project grew in scope from a fairly minor repair job to a full-fledged major capitalized property improvement.

Under AC's direction, sub contractors were coordinated and directed as well as dual coordination with the City Works, City Water, and County Fire Departments. Permits were pulled and inspections by the proper agencies were coordinated and completed throughout the project. Because this also turned into an insurance claim, direction from the insurance company was followed and documentation to the Insurance Adjustor was provided. The project was completed in a timely matter.

Throughout the project, AC offered options to completing certain regulatory agency requirements to more than just meeting the minimal standards. Several of these options were selected which more than satisfied and actually gave these agencies great confidence and trust in AC's care and management of the project.

Special care was taken throughout the project to protect as much of the existing landscaping and property fencing and structures. I observed a strong concern for safety of both its employees, our employees and to anyone that stepped onto our premises. Special safety measures were employed at all times thus minimizing the risk of accident or injury.

Please feel free to contact me at any time to discuss the attributes of AC Paving. I feel confident in their ability to meet and exceed your expectations.

Sincerely,

Tom Blaylock
